

## OHIO FACTIONS FIGHTING AGAIN

Special to The Tribune.

WASHINGTON, April 24.—Factional politics in Ohio is exciting some attention here just now, owing to indications that Senator Dick is taking up the fight where Senator Hanna laid it down. There never was any real friendship between Hanna and Foraker, and as soon as the former died the latter began to lay his plans for taking control of the Federal patronage in the Buckeye State.

With the cordial friendship of the President, it seemed likely that the Foraker faction would have things all its own way, but now Dick has stepped in and the trouble is likely to begin. About a week ago the President nominated Charles A. Judson to be collector of customs for the port of Sandusky, O. Judson is a Foraker man, and no sooner had his nomination reached the Senate than Senator Dick introduced a bill abolishing the port of Sandusky as an independent office, and making it a sub-port of Cleveland.

The office to which Judson has been appointed was recently vacated by "Ed" Zerkow, a Hanna man, against whom charges had been filed and who resigned when he heard that the President was likely to order his removal.

## Lord Likes War, Goes to Front

LONDON, April 24.—To a number of famous and interesting personalities now figuring at the theater of war will shortly be added young Lord Brooke, heir of the Earl of Warwick, who leaves London for Harbin, Manchuria, April 27th, as war correspondent for Reuters Telegram company. Though only 21 years old, Lord Brooke, who is a son of one of the famous court beauties, the Countess of Warwick, has already been in two wars. He refused to stay home when Great Britain was fighting the Boers, and ran off to the Transvaal with the yeomanry. There he became aide de camp of Lord Milner, the British high commissioner. Last year young Brooke, weary of peaceful England, went to the Balkans where he acted as war correspondent during the outbreak there. Now he will follow the fortunes of Gen. Kuropatkin.

### Damaged Vessel in Port.

LONDON, April 24.—The British bark *Holt Hill*, Capt. Parker, from Hamburg, for Portland, Or., before reported in distress at Maldonado, has arrived at Monterey. The captain reports that on March 25th, in latitudes 34° 30' N. and 120° 25' W., everything movable on deck, including the ship's boats, was swept overboard.

## Godless Singers in Church Choirs

Special to The Tribune.

CHICAGO, April 24.—Ministers of this city are still agitated over the caustic references made to the high-toned music that has practically eliminated the old-time hymns and congregational singing, by Rev. William Evans. Dr. Evans is superintendent of the Bible classes of the Moody Institute. He has, on several occasions, shaken the religious elements of Chicago by his denunciation of the so-called fashionable singing. His latest utterance has caused a stampede, and several ministers have publicly defended the present day singing from their pulpits. Rev. Mr. Evans, in part, is quoted as having said:

"High-priced singers are one of the greatest evils the churches today have to fight against. The leaders of singing in our churches ought to be as carefully selected as the pastor. They should be Christians or the choir should be abolished. The heart of every singer in church work should be in touch with the Infinite. It is impossible to do without a choir rather than have men and women who are rotten to the core singing in the house of God. The leading of the greater number of these handsome, high-priced singers is the money in I have heard because they remit the creditor when they collect." The Amer. Merc. & Reporting Agency.

## Real Fighting Is Now Imminent

Special to The Tribune.

PETERSBURG, April 24.—Apparently reliable information in the possession of the general staff leads to the belief that the objective of the Japanese campaign does not involve the immediate invasion of the interior of Manchuria, with the purpose of reaching and overwhelming the main Russian army. If the Japanese ever entertained the hope of accomplishing a task similar to that which Napoleon set himself, present advice indicates that they have abandoned it and have adopted a much more cautious and less hazardous programme.

If this information is correct, there will be no advance upon the army concentrated at Liao Yang and Mukden with its attendant constant lengthening and weakening of the Japanese line of communications. Instead there seems to be a determination to stick close as is possible to the sea, where lies Japan's natural base of communication, she having established herself in Korea.

Objective Points of Japanese. The General Staff reports say that the Japanese will have three other objectives—the occupation of a line across the Liao Tung peninsula for the purpose of cutting off Port Arthur, the isolation of Vladivostok and the establishment of a junction between the army of Korea and the army at the head of the Liao Tung peninsula. The last mentioned movement might be accomplished by a landing near the mouth of the Yalu river, which by threatening the flank of the Russian position at Feng Huan Cheng might render it untenable and make it possible to cut off the Russian army from the sea.

If these plans should succeed the life of both Russian squadrons in the Pacific would be much lessened, and the sea and a fleet back of her at every point, Japan could fortify the positions thus gained, and with the tables turned compel Gen. Kuropatkin to come forward and attack.

Gen. Kuropatkin, however, is in possession of the latest advice received by the General Staff and it is safe to assume that if the Japanese campaign develops along the lines indicated he will be ready to meet and checkmate it.

## Kill 23 Rioters and Wound 40

BUDAPEST, April 24.—Riot resulted at the market town of Eled, near Gross-Wardein, from a collision between meetings of the Socialist and Independent parties. While the gen-d'armee was trying to restore order a Socialist fired a revolver, killing the commander. The gen-d'armee thereupon fired a volley, killing two y-three of the rioters and severely wounding forty. The military were summoned from Gross-Wardein.

## Offended Mother at Her Son's Grave

Special to The Tribune.

NEW HAVEN, Conn., April 24.—Louis Muraca wants a divorce from his wife, Caroline, and he wants it. Several months ago the couple separated, the wife going to Albany, N. Y. Muraca brought suit, but the papers could not be served on the woman who abandoned him. The law would not permit of a final hearing until service was had.

The young son of the Muracas remained at New Haven with his father, and when the boy died the mother came to attend the funeral. Directly after the grave was closed Deputy Sheriff DeJon went to the mother and handed her the notice of the suit for divorce. The sorrowing woman tucked the document into the back folds of her mourning habit and returned to her New York home.

Muraca will get a divorce. The collectors of bad debts are located at 207 to 210 new Atlas bldg. "Everybody likes them because they remit the creditor when they collect." The Amer. Merc. & Reporting Agency.

### Fairbanks Not the Choice.

WASHINGTON, April 24.—From various sources it is said the President has been advised that the nomination of Senator Fairbanks of Indiana for Vice-President would not strengthen the Republican ticket, but, on the other hand, might tend to weaken the Republican vote. Fairbanks, therefore, who until recently was regarded as likely to become Vice-President, appears to be losing ground rapidly.

### Mexican Railways Merged.

MEXICO CITY, April 24.—The Government has bought out the receiver of the Maryland Trust company, Baltimore, the lines and property of the Vera Cruz & Pacific railway. The Government thus completes its great railroad merger and a continuous line of railway from Laredo to Saltillo on the Pacific ocean, by combining the Mexican National, the International and the Inter-Oceanic, the Vera Cruz & Pacific and the Tehuantepec railways.

### Distinguished German Coming.

NEW YORK, April 24.—Among the passengers who arrived on the steamer *Blucher* from Hamburg, Cherbourg and Southampton were Prince and Princess Hohenlohe-Schillingfurst, the former the son of the late Imperial Chancellor of Germany; the Princess Elizabeth, and his brother, Prince Karl von Hattenborg, Governor of Austria-Franconia. The party is on their way to the St. Louis exposition.

### Railroad Traffic Stopped.

CHANDLER, Kan., April 24.—The Neosho river at this point tonight is an inch or two higher than it was yesterday. Five inches of water have fallen in the past twenty-four hours. Traffic on both the Santa Fe and Missouri, Kansas & Texas railroads is paralyzed, and thousands of acres of farming land and developed oil lands are inundated.

### Fell Nine Stories to His Death.

CHICAGO, April 24.—Dr. Edward Henry Lee, a leading surgeon of Chicago and well-known clubman, plunged nine stories to an almost instant death in the clubhouse of the Chicago Athletic association, where he made his home. He fell through the open shaft surrounding the winding stairway. The fall was accidental.

## Alfred Peterson Died in the Hills

Body Found Frozen and Covered

With Snow, Where It Had Been Since February.

Ill and famished from cold, Alfred Peterson, 20 years old, a student of the L. D. S. College, became lost in the hills four miles northeast of the city on February 29th last, and sank down on the bleak mountainside to die. His half-decomposed body was found yesterday.

Edward Pace of 67 Wall street and Lester Barton, who lives at the corner of Third and North Main streets, about 11 o'clock yesterday morning were engaged in rounding up cattle on the east slope of the first ridge east of City creek, when their attention was attracted by the peculiar actions of a bunch of cattle that had surrounded some object high up on the ridge. Upon riding to the spot the young men were horrified to find amid the sage-brush the body of a man, partially covered with snow. They did not wait to make further examination, but came immediately to the city and reported their gruesome find to police headquarters.

The police department notified Coroner F. H. Clark and he, accompanied by Capt. Burbridge, Detectives Chase and Raleigh and an undertaker, drove out to the scene, surveyed the surroundings and brought the body to the Evans morgue on State street.

The parents were notified last night of the fate of their son, and they will come to the city today to take charge of the remains. It is likely that no inquest will be held.

## STATE NEWS

### BIG RAILROAD STRIKE SAID TO BE PLANNING

Special to The Tribune.

OGDEN, April 24.—Rumors to the effect that a big railroad strike is imminent are circulated, and the stories come from employees of the Utah Pacific, which matters all the more serious. The trouble is said to be an echo of the recent consolidation of the Hartman roads, and based upon the wages of the employees. As the story goes, the Utah Pacific men are paid 22 cents per hour, while the Union Pacific men are getting but 20 cents per hour. Officials of the roads profess to disbelieve the story, and state that they had not heard anything about any trouble.

As announced in The Tribune some months ago, the Democrats are making an active campaign for the nomination of Fred J. Kiesel for Governor to succeed Gov. Wells. Mr. Kiesel is considered by local Democrats as the best candidate that the party could present.

Daniel H. Ensign was called to Salt Lake Sunday by the death of his mother. The funeral will take place Tuesday.

The question of the viaduct over Twenty-first street is expected to come up before the City Council Monday night.

James Hassett left for Idaho to open a general store at Lewiston.

### AUTOMATIC FIRE ALARM PUZZLES DEPARTMENT

PARK CITY, April 24.—Through the inefficient working of the automatic fire alarm, the inhabitants of a small fire which occurred at the home of Michael Murphy, No. 20 Woodside avenue, Saturday evening, were kept in a state of alarm. The fire was extinguished before the department arrived.

John Huff of Ouray, Colo., died here Saturday afternoon, of alcoholism.

Mrs. John Geiger has returned from Salt Lake.

There will be a special meeting of the Woman's Atheneum Monday at the home of Mrs. E. E. Egges. The lesson for that day will be the third chapter of the April Magazine, which they are studying.

Mrs. F. W. Sherman left yesterday for an extended visit with her mother, Mrs. Woods, who is very sick at Butte, Mont.

The funeral of Mrs. Webster will be held from the residence of Henry Farey Tuesday at 2 o'clock. Services will be conducted by the Rev. G. F. Cook.

Bids are being received for the miners' hospital, which will be started as soon as the ground is in condition.

### NO JURY IN CLAYTON EMBEZZLEMENT CASE

Special to The Tribune. LOAN, April 24.—The time in the First District court was consumed Saturday examining jurors in the Clayton embezzlement case, and when court adjourned a jury had not been obtained.

Secretary E. W. Maughan of the Agricultural college tendered his resignation and it was accepted to take effect June 30th. Prof. Bevel, the present head of the commercial department at a salary of \$1000, was chosen to succeed him as secretary of the college at an advance of \$200, with Mr. Farrell, son of Bishop G. L. Farrell of Salt Lake, as assistant at a salary of \$600. Mr. Maughan is expecting to leave for California or Oregon, where he will make his future home. Early in May he will take a trip through California, Oregon and Washington. Mr. Maughan has been with the college for the past eight years, and has proven an exceptionally able officer. He is one of Logan's success to him wherever he may go.

### Aged Woman Dies.

PAROWAN, April 24.—Mrs. Bridget Butt, widow of Uriah Butt, died this afternoon, aged 70. Mrs. Butt came from England to this country, crossing the plains with the hand-carts. She leaves a family of four sons, all grown and having families, but not one was here at her death. They live in different parts of this State and Idaho.

Mrs. Butt became ill a week ago. She had been troubled with stomach trouble for several years, and it was that which caused her death. Her husband died in St. George about two months ago.

Wm. D. Mitchell

## LIFE SOURCES IN SEA WATER

LONDON, April 24.—After long and

patient research, M. Quinton, the French savant, has reached the conclusion that sea water is the natural source from which elementary bodies arise and develop into all species, including the human.

Heretofore the number of elements entering into the composition of the living body was considered about fifteen. M. Quinton has shown the existence of traces of at least fourteen others, which are also found in sea water, such as copper, lead, silver and gold. Further, if an animal is bled to the point of exhaustion and sea water is supplied in the place of the blood, the animal regains its strength in one day, and there is complete recovery in five days.

M. Quinton injected into animals a quantity of sea water greater than their own body weight without toxic effect. Injection of pure water rapidly causes death. From this it seems that sea water is the true nutrient fluid for animals, and M. Quinton's deductions are that the environment wherein the anatomical elements of living creatures exist is neither more nor less than a marine one, our tissues and cells continue to exert their functions in a fluid where the composition bears the closest resemblance to that of sea water.

## Eat Less and You Feel Better

Special to The Tribune.

WASHINGTON, April 24.—"Don't eat so much," is the advice of Prof. Russell H. Chittenden, director of the Sheffield Scientific School of Yale, who recently completed a series of experiments in this line. His conclusion is that man eats about three times too much for perfect mental and physical vigor.

The professor experimented upon three classes of men, including several professors at the school, several students, and a squad of United States soldiers. Their diet was a gradual reduction of meat and other protein foods, with little increase in starch and other foods in nearly all the cases. The result was a gradual improvement in the appetite of each subject. In only one case was meat entirely eliminated from the diet.

At the end of the experiments, which lasted from six months until nearly a year, and were conducted only a few days ago, the entire lot of men who had been Prof. Chittenden's subjects were in the best of health. Their weight in some cases was almost exactly the same as when the experiments were begun, and in some slightly lower. Their blood was in good condition, and their strength was much greater, partly owing to their regular physical exercises during the experiments and partly owing to the fact that they were not so tired. Chittenden believes, to the least amount of food eaten.

The daily consumption of food at the close of the experiments was much less than the recognized standard and from a third to half as much as the average man eats.

### Phonographic Discs Destroyed.

CAMDEN, N. J., April 24.—The building of the Victor Talking Machine company was burned today. Loss nearly \$500,000. Upward of a million phonographic discs and 25,000 talking machines in various stages of completion were destroyed. Thousands of original records, which cannot be replaced, were also ruined.

### Florence Crittendon Conference.

WASHINGTON, April 24.—An audience of large proportions gathered today at the mass meeting in the First Congregational church which opened the twenty-first annual conference of the National Florence Crittendon mission. Edwin Markham made the principal speech.

### NOTABLE DEAD OF DAY.

TRENTON, N. J., April 24.—Ex-Senator Henry Stafford Little died today from pneumonia, aged 81. He was one of the best known men in the State. He built and was president of the Reading system. Mr. Little gave Princeton university about a quarter of a million dollars for a dormitory that bears his name.

## YOU NEED CLEANSING

Throughout your entire system, Pitts' Iodized Sarsaparilla will rid the blood of all impurities, and purities that clog the physical machinery and corrode the liver, kidneys, heart and lungs. It is prompt and powerful, acting directly upon the glandular system, gives renewed tone and vigor to the vital organs. \$1.00 the bottle, 6 for \$5.00.

### Welcome. Step in. All cars start from.

## SPRING AND SUMMER SHOWERS.

All Nature Points the Way.

The showers that bring forth blossoms and make nature more beautiful often cause untold misery to mankind in whose blood the poisons of the past winter have accumulated. When all nature seems to be glad we sometimes experience our greatest ills. The important thing is to make this life worth while—consider each day a blessing and let this furnish you a warning that the blood is in disorder. Profit by the experience of others and quickly drive the poisons from the blood and build up the system with a reliable remedy—such as Dr. Pierce's Golden Medical Discovery which has stood the test of time and for over a third of a century has sold more largely than any other blood purifier. Thousands attest to its remedial value as witness the testimonials which have been published for the past thirty-five years.

### COMMON SENSE.

No one ever takes cold unless constipated or exhausted, and having what we call mal-nutrition, which is attended with impoverished blood and exhaustion of nerve force. Tonics consisting of large portions of alcohol, iron or cod liver oil do not bring the desired changes in the blood, because they do not enter the system and are not absorbed into the blood, with the exception of the alcohol, which shrivels up the cells of the patient. The "Golden Medical Discovery" accomplishes this, by first restoring the enfeebled digestive organs, so that food, the natural tissue builder, will be digested and assimilated. For there is generally present in these cases, loss of appetite and lack of sufficient nourishment to replenish the waste of flesh.

### TAKING A BATH.

In a bath tub put in by us is a luxury. But after the first cost it's a luxury that practically costs nothing. For it will not get out of order and flood the place. The waste pipe will not clog up if you use it right. And the traps will be properly arranged.

NO SEWER GAS. Can get back at you through our traps. It pays to have such a bath tub. It means free health and pleasure for the whole family. Want to talk to us about one? All right. Any time you say.

### HONEST PLUMBERS.

I. M. HIGLEY & CO., Electric Wiring and Fixtures. 109 East First South. Telephone 753.

### Glasses for the Eyes

Must be accurately and correctly fitted, else they will be of no use to the wearer. A pair of glasses that do not fit you will do more harm to your sight, so be careful where you purchase your "specs." We do reliable work and guarantee satisfaction, with prices.
